West Leyden Class of 65

50th Reunion:

We haven't heard anything about our sister school having a 50th Reunion.

Perhaps they are still suffering from all the losses they had at the hands of East. (only kidding of course)

East Leyden Class of 68 - Website:

If you want to see some awesome pictures of East Leyden, visit their website at:

The Class of 68 hosted a multi-year reunion on September 20, 2014 for classes of 66, 67, 68, 69 and 70.

It looks like the study hall is still there, but something is missing in the swimming pool.

Answer: Diving Board - didn't someone kick a hole in the ceiling when we were at Leyden

East Leyden Class of 64 -

50th Reunion

October 18-19, 2014 - Itasca, Illinois

We haven't received any information about their reunion,

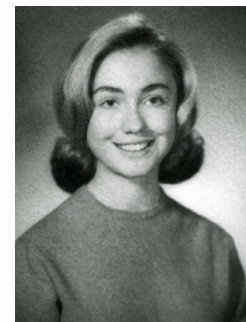

(perhaps they're still partying)

Did You Know?

Hillary Rodham Clinton
When Hillary started high school in 1961, all Park Ridge "publics" went to Maine Township High School. By the time she reached senior year, the baby boom was really booming, so the district opened Maine South.

Hillary transferred to the new school and graduated there in 1965.

Both Park Ridge high schools consider Hillary an alumn. Maine South claims the privilege because of her graduation. Her original school – now called Maine East – counters by pointing out that they had her for three years, not just one.

Hillary left Park Ridge to attend Wellesley College. At graduation four years later, the onetime Goldwater Girl was a Democrat. Hillary then went to Yale Law School and met Bill Clinton. The rest is history – and for once, that phrase is not a cliché.

The City of Park Ridge has designated the intersection of Wisner and Elm as Rodham Corner.

Ms. Clinton was inducted to The Inaugural Maine South High School's Wall of Honor in September of 2013.
